

Victorian Crown Grantees Index (Part 3) has been transcribed from parish maps and schedules published by the previous Department of Survey and Mapping.

Part 3 is a database containing approximately 164,000 names transcribed from 701 parishes out of a total of 2005 Victorian land parishes. It is an extension of Victorian Crown Grantees Index (Part 1) which contained 67,000 names from 600 parishes, published on fiche by AIGS in 1998, and Part 2 which contained 148,000 names from 701 parishes, published on CD in 2008. The database also includes a table with details of the indexing for each parish.

AIGS plans to complete the project with the publishing of Part 4, the transcription of names from the 909 townships, and the updating and consolidation of Part 1 data for publication on CD.

This project was indexed with the permission of the Surveyor-General Victoria, who retains copyright over the original records.

The Victorian Crown Grantees Index project has twice been awarded a Local History Grant by the Government of Victoria, in 2008 and in 2011, and this support and encouragement has been greatly appreciated.

© Copyright over the Victorian Crown Grantees Index (Part 3) vested in the Australian Institute of Genealogical Studies Inc.
