

Victorian Crown Grantees Index (Part 2) has been transcribed from parish maps and schedules published by the previous Department of Survey and Mapping.

Part 2 is a database containing approximately 148,000 names transcribed from 701 parishes from a total of 2005 Victorian land parishes.

It is an extension of Victorian Crown Grantees Index (Part 1) which contained 67,000 names from 600 parishes, published on fiche by AIGS in 1998.

AIGS plans to complete the project with the publishing of Part 3, the transcription of names from the remaining 700+ parishes.

This project was indexed with the permission of the Surveyor-General Victoria, who retains copyright over the original records.

© Copyright over the Victorian Crown Grantees Index (Part 2) vested in the Australian Institute of Genealogical Studies Inc.
